"Connecting You With Global Tech And Digital Community" is the theme of "DigiTech Asean Thailand 2022", which will take place at Impact Exhibition Centre's Building 7, Muang Thong Thani, from tomorrow to Friday daily from 10am to 5pm.

Organised with the support by the Ministry of Digital Economy and Society and the Ministry of Higher Education, Science, Research and Innovation, this is the only event that brings together the latest solutions, including software for business, artificial intelligence, cyber security, e-commerce and digital marketing, data and cloud, smart solutions and IoT, as well as 5G technology and networks.

It will feature products and services from leading technology and digital companies of more than 150 well-known brands from Thailand, Singapore, Hong Kong, Japan, South Korea, Malaysia and Taiwan.

They include G-Able, Lenovo, Big Beat Bangkok, Choco Card Enterprise, Zoho Corporation, Kintone Southeast Asia, Security Pitch, Cloudee Telecom, CSI, Hitachi Asia, Altos Computing, Netka System and ICONEXT.

There will also be seminars on over 80 topics in collaboration with Tech Talk Thai to introduce knowledge of changing trends and operational business strategies.

Topics include "Moving Toward The Future Of Hybrid Work With Zoho Location Intelligence: Technology Of Change", "The Role Of Artificial Intelligence In Smart Factory: Lessons And Challenges", and "Cyber Security Solutions By DevSecOps Guidelines Using Digital To Transform Your Business".

There is no admission fee but registrations are required via bit.ly/3sLervF.
